**HARVEST MENU**

# HEY WINEMAKER!

**THE GRAPES ARE HAVING A GREAT GROWING SEASON!**

A little about Chile...

Chile is a winemaker's paradise, celebrated for its breathtaking landscapes, exceptional terroir, and vibrant wine styles. Chile's wine regions perfectly balance tradition, innovation, and natural beauty. Known for producing wines with bold flavors, elegant structures, and remarkable value, Chile has become a powerhouse in the global wine market.

A little about South Africa...

South Africa's wine regions benefit from a one-of-a-kind climate and geography that create the perfect conditions for producing premium juices. The influence of the Atlantic and Indian Oceans ensures cool breezes that temper the warm, sunny days, allowing for slow, even ripening of the fruit. The country's varied soil types, including granite, sandstone, and shale, contribute distinct characteristics to the wines.

Give us a call at 877-812-1137 or send us an email at [sales@juicegrape.com](mailto:sales@juicegrape.com) to discuss your winemaking plans for the upcoming season.

**HAVE YOU STARTED YOUR 2025 WINEMAKING WISH LIST YET?**

**CHEERS!**
